To Whom It May Concern:

I strongly oppose paying higher health insurance premiums for coverage that pays for other's use of drugs and devices that I oppose because some of these can cause an abortion (such as ella and Plan B).

I am asking you to rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients.

I also ask you to reconsider your definition of religious employer and offer an authentic conscience protection for any organization or business that has moral or religious objection to providing such insurance to their employees.

The definition of "religious employer" in the regulation is so narrow as to only include churches, but will still mean that a host of businesses and organizations that have conscience objections will be required to choose between either violating their conscience or not being able to offer employees health insurance.

No Americans should be forced by the federal government to essentially subsidize services they object to. I again urge you in the strongest way possible to reverse course and remove contraceptives and sterilizations from the list of mandatory preventive services.

Sincerely,
Wendy Olson
Mission Hill, SD 57046
